3days of special events that take you to the heart of Japan's craftsmanship

By experiencing the "master craftsmanship" and watching its demonstration, rediscover Japan's life and job having been kept by craftsmen!

Experience Program

Don't miss out on this unique occasion!

Experiencing in making silver and brass straps

Through creating straps yourself, you can experience the world's leading traditional metalwork technology, which boasts a long history of 7000 years.

Making mud balls

Try your hand at the plastering technique used for high quality wall finishing by making a shiny mud ball.

Pass case creating experience

You can experience making pass cases using an industrial sewing machine. Please physically feel the skills of the master craftsmanship kept by a lot of experiences and training.

Demonstration Performance

You are able to watch demonstrations of "master craftsmanship" called from all over Japan!

Demonstration of stage-back replacement

Using a newly developed material, stage-back wallpaper is replaced. A technique of interior decoration finish is demonstrated.

Ice sculpture, ice statue and openwork of flowers

Techniques for creating table wares, ice statues which decorate party venues, and ice sculptures are demonstrated.

Fun events on the main stage and at the theme exhibition are held.

Spinning top tournament

Small manufacturers will bring the spinning tops they designed and made, to demonstrate the excellence of their metalworking skills.

Traditional Japanese architecture

Carpenters harness the nature of wood to build a house without metal parts. There will also be a demonstration of a ridge beam raising ceremony.

At "National booth" in the first basement, techniques of master craftsmanship gather from all over Japan!

Techniques such as lacquer ware, Maki-e, Kamo chest of drawer and Okinawa Japanese dress making of mater craftsmanship from various parts of Japan are collected. Tohoku areas, Kumamoto and Oita prefectures also exhibit! (Disaster Recovery Support Booth)
